1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track every detail, from small expenses to major investments.

2. The second section focuses on the role of technology in modern record-keeping. It highlights how digital tools can significantly reduce the risk of human error and improve the efficiency of data management. The author argues that adopting cloud-based solutions allows for real-time access to information, which is crucial for decision-making and compliance.

3. The third part of the document addresses the challenges of data security. It notes that as the volume of data increases, the risk of breaches also grows. Therefore, organizations must invest in strong cybersecurity measures, including encryption and regular security audits, to protect their sensitive information from unauthorized access.

4. The fourth section discusses the importance of training and education for staff involved in record-keeping. It states that even the most advanced systems are only as good as the people using them. Regular training sessions and workshops can help ensure that all employees are up-to-date on the latest practices and protocols, reducing the likelihood of mistakes.

5. The fifth part of the document touches upon the legal and regulatory requirements surrounding record-keeping. It mentions that various industries have specific rules regarding how long records must be kept and how they should be stored. Organizations must stay informed about these regulations to avoid potential fines and legal consequences.

6. The sixth section explores the benefits of maintaining comprehensive records for long-term planning and analysis. It explains that historical data can provide valuable insights into trends and patterns, helping organizations make more informed strategic decisions. The text also notes that well-maintained records can be a key asset in audits and legal proceedings.

7. The seventh part of the document discusses the importance of backup and disaster recovery plans. It stresses that even the most secure systems can be vulnerable to hardware failures or natural disasters. Having a reliable backup strategy ensures that critical data is preserved and can be restored quickly in the event of an emergency.

8. The eighth section of the document addresses the issue of data privacy. It mentions that with the increasing awareness of personal data rights, organizations must take extra steps to ensure that their record-keeping practices comply with privacy laws. This includes limiting access to sensitive information and providing clear policies on how data is collected and used.

9. The ninth part of the document discusses the importance of regular reviews and updates to record-keeping procedures. It suggests that as business needs and technologies evolve, organizations should periodically reassess their current practices to ensure they remain effective and relevant. This ongoing process helps maintain the highest standards of record-keeping.

10. The final section of the document provides a summary of the key points discussed and offers some concluding thoughts. It reiterates that while record-keeping may seem like a mundane task, it is in fact a critical component of any successful organization. By following the guidelines outlined in the document, organizations can ensure their records are accurate, secure, and useful for years to come.

Or leave it to us to make up a collection for whatever you wish to spend. We will give you surprising value -- sure to please.

ALL PRICES POSTPAID.

CULTURE: Dahlias are easily grown, requiring no special soil or care. They prefer an open, sunny situation, but will grow in partial shade. Potato or corn soil is suitable. Plant only after all danger of frost is over, from April 15 to June 15; the later plantings give the best flowers. Plow or spade soil as deeply as possible. Do not use fresh stable manure in spring. Well-rotted manure, bone meal, pulverized sheep manure, and commercial fertilizers may be used. But do not over-fertilize. Plant in rows, three feet apart, about six inches deep. Place tuber on side. NOT ON END. Keep ground well cultivated. When buds appear, mulch the ground with well-rotted manure if possible. Water thoroughly. Disbudding side buds, leaving only the terminals, gives larger flowers. When plants are blackened by first frost, cut tops near ground, raise clumps carefully, allowing to dry in air a few hours. Store in dry cellar in temperature about 40 degrees. Put in paper-lined boxes, in sand or dry soil, to keep from shrivelling. In spring divide clump, leaving an eye to each tuber. A tuber without an eye is "blind" and worthless.

GLADIOLUS -- THE BETTER KINDS

LIBRARY
RECEIVED
★ AUG 30 1935 ★
U. S. Department of Agriculture.

Our list of Gladiolus shows only such varieties as we have found of the best. They have won many prizes for us at flower shows around Washington. It takes just as much labor and ground to grow poor varieties as good ones; why not grow the better kinds?

Named Varieties -- 5¢ each; 50¢ per dozen except as otherwise noted.

AFLAME. A giant Prim-Grand; a rich, deep begonia rose, orange flame.
ANNIE EBERIUS. Velvety deep purple; very popular variety.
ANNIE LAURIE. A very delicate flower of medium size; light pink.
APRICOT GLOW. Clear apricot Prim-Grand; tall, strong spikes.
ARISTOCRAT. Prim-Grand; pale saffron, flaked orange; a lovely color.
BETTY NUTHALL. Coral pink, pale yellow throat; tall, straight spikes.
BENGAL TIGER. Good growing; oriental orange and red; dark markings.
CHARLES DICKENS. Early; very tall; purple violet; vigorous.
CRINKLES. Beautifully ruffled, peach blossom pink; very popular.
DR. F. E. BENNETT. Fiery orange, scarlet; many blooms open.
EVELYN KIRKLAND. Very fine; dark pink; tall; good grower.
GLORIANA. Extra tall; golden salmon, yellow throat; vigorous.
GLORIOUS. Creamy apricot; ruffled; a real beauty.
GOLD EAGLE. Extra early; deep golden yellow.
GOLDEN DREAM. Tall, strong grower, long stems; clear deep yellow.
GOLDEN FRILLS. Heavily ruffled; deep yellow; red feather in throat.
GOLDEN MEASURE. Very tall; deep yellow; extra fine, large blooms.
HELGA. Fine salmon rose; tall, very pretty.
INDIAN MAID. Peach blossom pink; attractive.
JACK LONDON. Salmon with red lines.
JEAN TENNY. Tall grower; very beautiful, silvery pink; extra fine.
LAVENDER BRIDE. A smooth, smoky lavender with nice blotch; tall.
MARNIA. Golden orange, tinted pink; good grower; very pretty.
MR. W. H. PHIPPS. Iridescent pink to rose salmon; many flowers open.
MRS. F. C. HORNBERGER. A tall, strong growing, pure white; a winner.
MRS. F. C. PETERS. Tall; fine lavender; an outstanding variety.
MRS. N. VANDERBILT. Salmon pink; a fine grower and choice.
PEACH ROSE. Rich pink of peach hue; sure to please.
SARABAND. A velvety oriental brownish red to reddish purple.
SWEET LAVENDER. Very early; lavender with darker throat; extra good.
TYCO ZANG. Large flower of brilliant salmon pink color.
WILBRINK. An early bloomer; delicate creamy pink; always good.
WILLIAM KENT. Intensely ruffled; creamy buff, with pink suffusion.

HILKREST MIXTURE. -- A rainbow collection of all types and colors, consisting of varieties mixed in handling and growing; lost-named ones, "pick-ups" after harvesting, small lots not listed, etc. Many high priced ones are included. Blooming size bulbs, one inch and up, \$1.00 per hundred. One inch and under, many will bloom first year, 50¢ per hundred. A fine collection at low price.

Ten different varieties -- 10 of each (100) -- same price.

Fifty, no two alike, a wonderful collection of beauty -- \$1.00.

Postage paid on orders for \$1.00 or more. Ten per cent discount in bulbs; customer's selection on orders of \$5.00 or more. Can supply quantity lots for those who wish to grow for roadside or neighborhood selling of cut flowers, a nice means of earning spare money.

HILKREST GARDENS, 120 Carroll Avenue, Takoma Park, D. C.

Shepherd 1848.
